Dan, Gina, Angela –

I took a very quick look at the revised website and letter. I will not be able to do a close comparison until tomorrow (Friday) because I have to spend the day today in Olympia with the Nisqually Tribe.

I think Larry/Marty took a good portion of our comments, although I think they overlooked some very basic technical corrections, leaving some factual errors.

I'll prepare a summary of what has changed/stayed the same and highlight things that seem important to fix and send it to the three of you tomorrow or first thing Monday – does that work?

Lisa

Subject: What's Upstream Web Site

Dan, Angela and Lisa,

Thank you for your guidance over the past several months regarding the Swinomish Tribal Indian Community's What's Upstream public information campaign about non-point source

pollution. We have reviewed your thoughtful suggested edits to our content, and have incorporated many of them in the final versions of text for the website and the letter to elected officials, which you will find attached.

The updated website will go live by the end of October, and, we believe, is stronger as a result of your team's input. Thank you again for your assistance and support of this important ongoing project.

All the best,

Marty
